

Project :	Date :
Cat No. :	Type :
Notes :	Volts :

Description:

The **NTALB-17** LED bar design provides a unique linear lighting solution combining style, performance and durability in a medium width strip, while reducing constructions and operating costs through installation time, energy savings and maintenance free application.

Housing:

The **NTALB-17** is a high precision extruded anodized aluminum that can accept a LED linear source from normal to high power.

Lens:

Extruded acrylic lens setting by pressure on the aluminum profile.

- NL** No lens
- FR** Frosted
- OP** Opal (white)

Mounting:

Mounts within a recess section with clips.

- FC** Fixed clips (set of 2)
- SC** Swivel metal clips (set of 2)
- B** Aluminum bracket

Accessories

NTALU17-B-L NTALU17-B-T NTALU17-B-X

Application/Installation:

The **NTALB-017** LED bar can be installed for up, or down applications or side for 180° light diffusion. Consult factory for damp application or splash area using our silicone jacketed IP67 sources. **(WP)**

Voltage:

- 12 VDC
- 24 VDC

Electrical and Electronics:

High quality diodes tested (LM80) and certified life cycle for 50,000 hours (L70). All certified electrical and electronic components have been re-tested over the years for compatibility within products and for specific applications. All products exceed current standards.

Power supply not included, consult factory. Consult the LED specification sheet for the appropriate optional dimmers and controls combination for your project.

Homologation:

Conforms to ANSI/UL standard UL-2108
Certified to CAN/CSA standard 22.2-9.0

NTALB-17
