

NTALB-02R

Project :	Date :
Cat No. :	Type:
Notes:	Volts:

Description:

The NTALB-02R LED bar design provides a unique linear lighting solution combining style, performance and durability while reducing construction and operating costs through installation time, energy savings and a maintenance free application. Ideal for surface installations.

Housing:

The **NTALB-02R** is a high precision extruded anodized aluminum bar that can accept a low-power LED source to medium power.

Lens:

Precision fit extruded acrylic for indoor use only available in:

FR FrostedOP Opal (white)

Mounting:

Mounts within on a surface with:

FC Fixed clips (set of 2)

SW Swivel clips (set of 2)

Application/Installation:

The **NTALB-02R** LED bar can be installed, for up, or down applications. This bar can be installed on surfaces, under cabinets.

Voltage:

12 VDC 24 VDC

Electrical and Electronics:

High quality diodes tested (LM80) and certified life cycle for 50,000 hours (L70).

All certified electrical and electronic components have been re-tested over the years for compatibility within products and for specific applications. All products exceed current standards.

Power supply not included, consult factory. Consult the LED specification sheet for the appropriate optional dimmers and controls combination for your project.

Homologation:

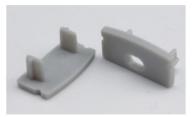

Conforms to ANSI/UL standard UL-2108 Certified to CAN/CSA standard 22.2-9.0

4010322
