Wiring diagram

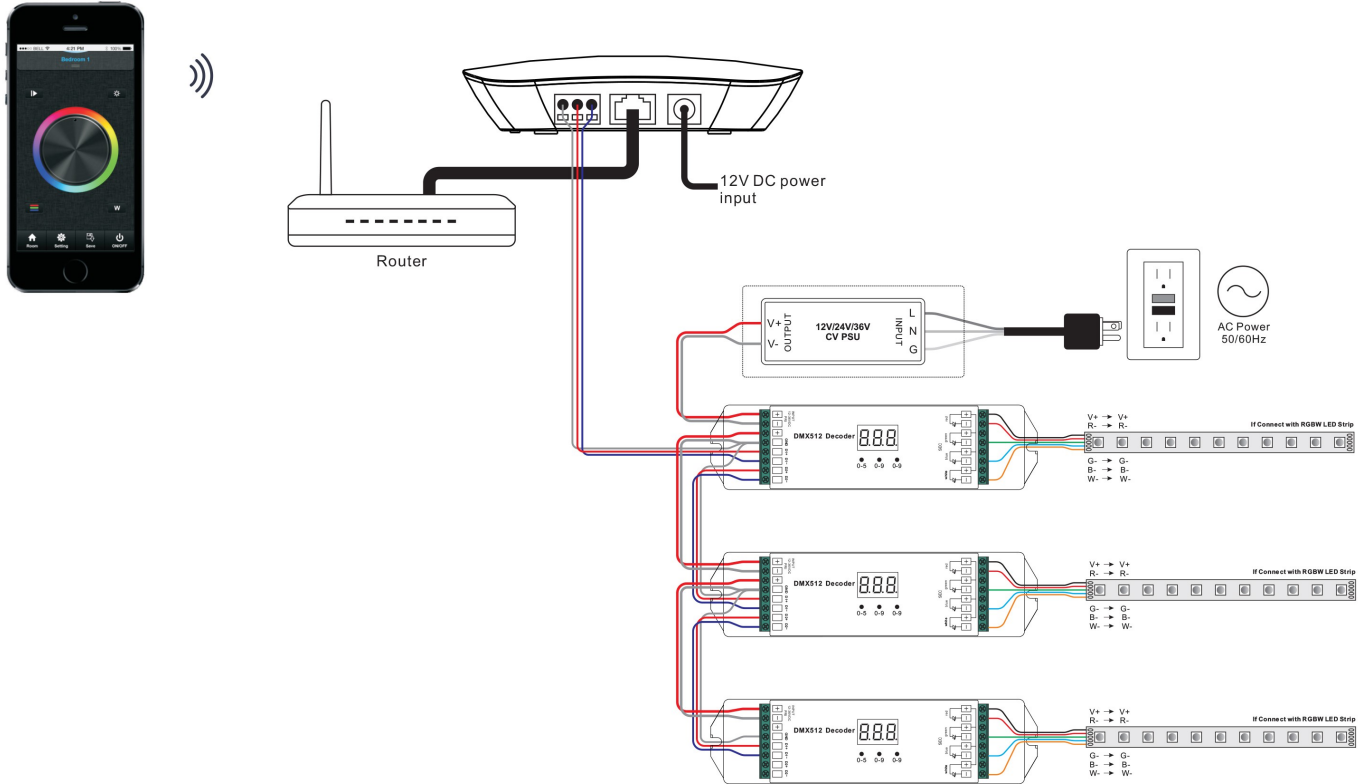

Method 1: Connect your cell phone with your home net router(WiFi-RF)

Method 2: Connect your cell phone with the convertor(WiFi -RF)

Method 3: Connect your cell phone with your home net router(WiFi -DMX512)

Operation

1. Download application from 'app store' or 'google play' by searching 'easylighting' or scanning following QR codes.
2. If the converter has connected with router, then connect your cell phone to your router network. If the converter did not connect with router, then connect your cell phone to the converter network directly. (Password:0123456789)
3. Open the easylighting application and operate according the application manual.

Andriod

IOS

Set DMX Address:

Set DMX decoders' address as follows for multi-zone RF remote or EasyLighting APP:
 DMX decoders with address 001 will be controlled by zone 1,
 DMX decoders with address 005 will be controlled by zone 2,
 DMX decoders with address 009 will be controlled by zone 3,
 DMX decoders with address 013 will be controlled by zone 4,
 DMX decoders with address 017 will be controlled by zone 5,
 DMX decoders with address 021 will be controlled by zone 6,
 DMX decoders with address 025 will be controlled by zone 7,
 DMX decoders with address 029 will be controlled by zone 8.
 Each zone can pair endless of DMX decoders if you set the address accordingly.
