

Project :	Date :
Cat No. :	Type :
Notes :	Volts :

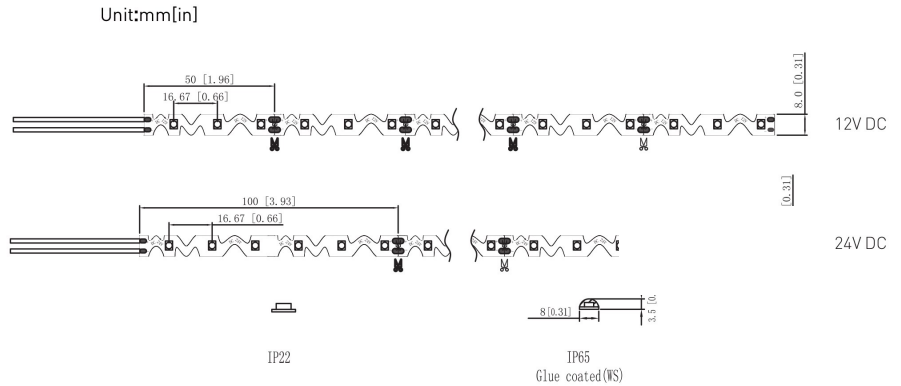

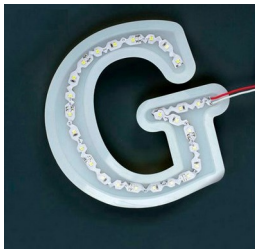

Applications :

The NTZZ60 linear source is a zigzag led tape.

This Zig Zag LED strip is flexible. The shape of the electronic circuit allows you to bend it horizontally as well as vertically.

It is possible to create complex lighting designs, follow rounded shapes, create lettering.

It allows you to bend easily flat to follow the curves of letters on a sign.

Characteristics :

- 60 diodes per meter
- 6 Watts per meter
- Voltage 24 VDC standard
- CRI: 90
- 1.5M in 12V length per circuit
- 2M in 24V length per circuit
- 120° degrees beam
- Lifespan: 80,000 hours
- IP22 standard
- **Operating Temperatures:**
Min -40°C/+50°C Max.

Linear Source Dimensions:

- 8 mm (0.31") wide X 1.8mm (0.07") high
- Length : 5 meters (16'4") per roll.
- Adhésive : Type 3M on back
- Cut every :
50mm/1.96" for 12 VDC
100mm/3.93" for 24 VDC
