Description:

The **NTALB-218** LED bar design to illuminate artwork or photographs. We recommend the cob led 10mm or less as a light source to light without dots. Only one type of diffuser is available: the Asymmetric Lens, which has a non-uniform shape and is designed with varying curvatures on each side, allowing it to focus lighting more effectively. The wall rods are included, for easy wall mounting above the pictures.

Lens:

Only one lens are available that can illuminate walls evenly
ASY asymmetric

Mounting:

Mounts within on a surface with:
2 wall lamp bracket (262mm/10.315")

Application/Installation:

The **NTALB-218** LED is for art galleries, museum, retail display, etc..

Voltage:

12 VDC
24 VDC

Electrical and Electronics:

High quality diodes tested (LM80) and certified life cycle for 60,000 hours (L80). All certified electrical and electronic components have been re-tested over the years for compatibility within products and for specific applications. All products exceed current standards.

Power supply not included, consult factory. Consult the LED specification sheet for the appropriate optional dimmers and controls combination for your project.

Homologation:

Conforms to ANSI/UL standard UL-2108
Certified to CAN/CSA standard 22.2-9.0
